- **Recycling in McCall editorials-** Guest speakers Mary Hart and Ester; formerly Recycling Partners; presented the EAC with their data/reports/meeting notes and discussions, dating back to 2007, about creating a safe, functioning recycling center in McCall city limits. Supporting documents can be found on the EAC google doc account.

Discussions took place about why the Recycling Partners were not able to complete their vision. Members discussed inviting county commissioners to the next meeting to talk about waste/recycling contract with Lakeshore Disposal. Deb agreed to invite them.

Key points of discussion include 1) Education is key to get public to participate and support a new recycling center. 2) Local media sources, as well as letters to the editors support the idea cleaning up and maintaining a recycling center. 3) Contact commissioners to find out about Lakeshore contract, what is being done with monies collected from recycling, how much they are recycling? Would Lakeshore be willing to drop recycling component of contract?

- **Green Brochure-** Tara reported on Green Business ads in the Star News; 3 total published. Money to pay for the ads come from Recreation budget- \$336.00. The stickers made are too small; committee agreed a larger decal would be nicer to present to the businesses. Tara said she would get a quote from Rocky Mtn. Signs. Already paid \$47.25 for smaller stickers.

Deb assigned members to specific McCall business areas to visit and talk with business owner in person; will report progress at next meeting.
