Reuse internal office supplies			

Reuse packing material			
Recycle or donate old computers or electronics			
Provide employees and customers with recycling bins			
Other:			
WASTE REDUCTION	Now	3mo	N/A
Use only recyclable packing material and eliminate use of Styrofoam			
Set printers and copiers to double-sided printing as default setting			
Use electronic billing and communication methods to reduce paper use			
Discourage printing of electronic files; maintain files electronically			
Eliminate, discourage, or significantly reduce the use of single-use, disposable items, such as straws, plastic bags, chopsticks, disposable cups, plates, utensils, coffee stirrers. Explain:			
When take-out containers are provided, use containers made of paper or biodegradable material			
Use and provide to customers tap water instead of bottled water, unless bottled water is specifically requested.			
Provide employees with durable (non-disposable) kitchen plates, cups, and utensils			
Collect and properly dispose of electronic waste, paint, batteries, mercury lighting, and other hazardous waste.			
Provide electric hand dryers in restrooms.			
Use rechargeable batteries when possible.			
Establish practices to encourage low-waste generating catering and event services:			
Water is provided in pitchers; bottled water provided only upon Request			
Serve buffet-style meals rather than boxed lunches			
Provide condiments (sugar, salt, pepper, ketchup, etc.) in bulk Dispensers			
Eliminate single-use, disposable cups, plates, utensils, and napkins,			
If used, single-use items are made of paper or biodegradable material.			
Support local and sustainable food vendors (see Green Purchasing Practices)			
Eliminate individually-wrapped food items			
Donate excess food to local food bank			
Provide clearly marked recycling bins adjacent to all trash cans			
Minimize or use eco-friendly promotional items			

Other:			
GREEN PURCHASING PRACTICES			Now 3mo N/A
Purchase paper products made with 30% minimum post-consumer recycled content			
Purchase products that have recycled content, or are used or re-purposed			
Purchase biodegradable and cruelty-free cleaning products			
Support local (Idaho) and/or sustainable food vendors:			
Purchase local, organic, and/or grass-fed beef			
Purchase sustainably harvested fish			
Purchase local dairy products			
Purchase local, organic, and/or sustainably grown produce			
Purchase recycled-content, low-VOC, or Green Seal-certified paint			
Other:			
ENERGY AND WATER CONSERVATION			Now 3mo N/A
Install Energy Star rated equipment:			
Dishwasher			
Refrigerator			
Other:			
Install low-energy lighting (CFL, LED)			
Install motion sensors and lighting controls			
Place "turn off" reminders on light switches			
Turn off electronic devices, including computers, when not in use			
If available, use stand-by mode on equipment, such as copiers, computers			
Use or invest in renewable energy sources:			
Use solar power			
Member of Idaho Green Power Program			
Install water-conserving equipment:			
Install low-flow toilets (< 1.6 gpf) and low-flow urinals (< 1.0 gpf)			
Install sink faucet aerators/low-flow faucets			
Install water-efficient irrigation			
Install water-conserving dishwasher			
Install low-flowing nozzle for dish scrubbing and pre-cleaning			
Maintain sealing around windows and doors to close air gaps in all conditioned/heated spaces			
Install programmable timers on air conditioning or heating equipment			

TOXIC REDUCTION AND POLLUTION PREVENTION PRACTICES	Now	3mo	N/A
Has established practices or policy for reducing hazardous waste			
Know and use proper practices for disposal of fat, oil, and grease			
For restaurants, install a grease trap			
Keep company vehicles well-maintained to prevent leaks and minimize emissions			
Convert company vehicles to natural gas, alternative fuels, hybrid, or electric vehicles			
WATER POLLUTION PREVENTION	Now	3mo	N/A
Do not wash cars, equipment, floor mats, or other items where run-off water flows directly down to a river, lake, or other body of water			
Keep spill kit handy to catch and clean spills from hazardous materials or grease			
Post signs at trouble spots (loading docks, dumpster areas, outside hoses) describing property practices			
Eliminate use of pesticides and herbicides within 20 feet of waterway and ditches			
Use landscaping to minimize erosion problems			
Use landscaping and best management practices to minimize erosion problems during construction and demolition			
Local hazardous materials and waste storage away from waterways			
Install containment berms around liquid storage and transfer areas to capture spills			
Direct runoff away from waterfronts and onto vegetation			
Maintain culverts in good working condition			
Other:			
LANDSCAPE MAINTENANCE	Now	3mo	N/A
Plant native shrubs or trees			
Maintains property to be free of weeds listed on the Idaho Noxious Weed List			
Has landscape maintenance program that reduces or eliminates the use of herbicides, pesticides, and/or fertilizers			
When used, use organic insecticides, fertilizers, or biocides			
OTHER PRACTICES	Now	3mo	N/A
Encourage employees to bike, walk, or take the bus to work			
Provide secure bike storage space for employees			
Provide bicycle parking for customers			
Other:
