

## A complete application will include:

### Supplemental Information to be provided:

You will electronically submit the following via provided links once you enter the application portal. They are located above the buttons for the building permit applications.

- Project Information** form (See attached worksheet. If you cannot complete this worksheet, contact the building department for assistance before you apply)
- Construction Plan**
- Water Fixture Worksheet (if building an accessory structure that will include City water and a separate connection is required by the City Water Department)**

Use the “upload” button at the end of the application to provide the following

- Plans** - electronic PDF
  - Site plan:** proposed ***and*** existing structure footprints, lot lines, setbacks (as related to lot width and building element height), easements, water meter pit location, sewer tap location, significant trees (12”+) existing and to be removed, location of 2<sup>nd</sup> stage gas regulator (if propane will be used), topo lines (existing & proposed), driveway location and width, driveway slopes, culvert size, parking, walkways, decks, landscaping (3.8.13), lot coverage computation (refer to 3.03), and snow storage (3.8.15).
  - Footing and foundation plan/detail:** footing sizes, rebar, ventilation, etc.
  - Floor plan(s):** showing complete information: occupancy type, room use, egress, etc.
  - Wall bracing plan(s):** braced wall lines (shear walls), hold-downs, etc.
  - Elevations/wall sections:** include building heights prior to excavation, insulation, etc.
  - Roof & framing detail:** ridge/valley gable, bearing, headers, sheathing, waterproofing, roof type
  - Outdoor lighting plan:** (refer to MCC 3.14) (**provide lighting spec**)
  - Residential energy code check** (REScheck, LEED, or specifications on plans to meet code)
- Structural Calculations – Required for all applications.** Details and calculations for all load bearing footings, joists, beams, headers, rafters, braced walls (shear walls), etc.
- Sewer Permit (if building an accessory structure that will include bathrooms and a separate connection is required) –** obtained from Payette Lakes Recreational Water and Sewer District if connecting to their system. Otherwise, a septic permit or approval provided by Central District Health Department is required.

---

Additional information may be required prior to issuance of a building permit:

- HOA approval** (if applicable)
- Planning & Zoning process Conditions of Approval** (if applicable)

Fees

- Plan Review Fee** – should be paid upon receipt of the invoice which will be sent to the contractor on the application via email once your application is submitted. Note that the Permit Fee can be paid at the same time as the Plan Review Fee or at a later time but must be paid as well in order for your permit to be issued.
- Water Fees and Meter Purchases (when applicable)** – after you submit your PWP application and Water Infrastructure sizing info, it will be evaluated by the City Water Department who will determine the number of ERUs (Equivalent Residential Units) your project will use, the size of the connection, and the size of the water meter you will need. Water meters are provided by the city but must be purchased. You will receive a letter via email from the water department communicating the fees and you will be invoiced for that amount. These fees must be paid prior to building permit issuance. Questions regarding this process should be directed to Public Works.

I, the applicant, certify that I have submitted a complete set of plans including the above information.

# APPLICATION PROJECT INFORMATION

## REQUIRED PROJECT INFORMATION

If you do not know an allowable amount, refer to the [Residential Development Guide](#) or contact a building/planning staff member prior to submitting your application.

### Allowable Lot Coverage

Lot Area in square feet: \_\_\_\_\_  
Lot Coverage % Allowed: \_\_\_\_\_

### **Lot Coverage Allowed:** \_\_\_\_\_

(ex: lot area is 10,000 sq ft and percentage allowed is 30% - multiply 10,000 x .30 = 3,000 sq ft lot coverage allowed)

### Proposed Lot Coverage

Footprint of existing structures: \_\_\_\_\_ ft<sup>2</sup>

Footprint of proposed structures: \_\_\_\_\_ ft<sup>2</sup>

**Total Structure footprint:**  ft<sup>2</sup>

Area of existing uncovered decks,  
Patios, walkways, plazas, etc. \_\_\_\_\_ ft<sup>2</sup>

Area of new uncovered decks,  
Patios, walkways, plazas, etc. \_\_\_\_\_ ft<sup>2</sup>

**Total decks, etc. area** \_\_\_\_\_ ft<sup>2</sup>

Multiply Total Decks, etc. area times 50% (.50) of actual=  ft<sup>2</sup>

Existing driveways, parking, etc. \_\_\_\_\_ ft<sup>2</sup>

Proposed driveways, parking, etc. \_\_\_\_\_ ft<sup>2</sup>

**Total driveway area** \_\_\_\_\_ ft<sup>2</sup>

Multiply Total driveway area times 35% (.35) of actual=  ft<sup>2</sup>

**Total Proposed Lot Coverage:** \_\_\_\_\_  
(sum of red boxes)

---

**Proposed Building Size**

Occupied space (existing) \_\_\_\_\_

Unoccupied space (existing garage) \_\_\_\_\_

Covered exterior space (existing) \_\_\_\_\_

Occupied space (new) \_\_\_\_\_

Unoccupied space (new garage) \_\_\_\_\_

Covered exterior space (new) \_\_\_\_\_

***Total Proposed Building Size:*** \_\_\_\_\_

*(If over 3500 ft<sup>2</sup> stop and contact the City Planner's office for Design Review prior to building permitting.)*
