- Lakefront and Brown Park Improvement Update- Kurt Wolf (Action Item)

Mr. Wolf presented the update on the Lakefront and Brown Park improvements. The bank stabilization project is wrapping up today or tomorrow. They did a good job of sediment mitigation. He was happy with work that was done and it since the project came in under bid and under budget, they were able to add some larger rocks to help with aesthetics and wave stabilization. They are saving some of the mill materials that can be potentially utilized as display in the future. They were able to take out the old piling as they were setting the rock. Footings will not be advised based on the initial draft of the geo-technical report. Wooden piles will most likely be used to support the platforms. They are trying to relocate the site for the playground in the spring to be closer to the lake and move it off of the sewer line it is currently on and berm between it and the nearby residential.
