

FOR IMMEDIATE RELEASE

Winter Visitors Advisory

McCall, Idaho—February 21, 2024

Health & Safety

The City of McCall urges winter visitors in 2024 to prioritize safety and comfort during the McCall Area Chamber's Winter Carnival event. Please plan to dress appropriately for cold or wet weather and be prepared for walking on ice and snow. McCall experiences varying snow showers, from light to heavy, along with freezing temperatures. It's advisable to wear comfortable, warm shoes with good traction. Additionally, exercise caution when walking in all areas of our mountain town.

Kids & Ice

Ensure close supervision of children, especially near roads and when sledding on berms or down driveways, as it can be hazardous. Payette Lake is not frozen so sledding onto or walking on ice is dangerous and not advised.

Getting Around During Winter Carnival

Use the Winter Carnival Map to find restrooms, sculptures and more. Our pathway system and public transportation offer convenient ways to explore the area. Here are some links to help you. Roads may be closed throughout carnival especially during the parade. Please allow at least an hour after the completion of the parade before trying to drive and always respect detours and traffic safety signs, signals, and helpers.
