

# COMMUNITY OUTREACH AND INPUT SUMMARY

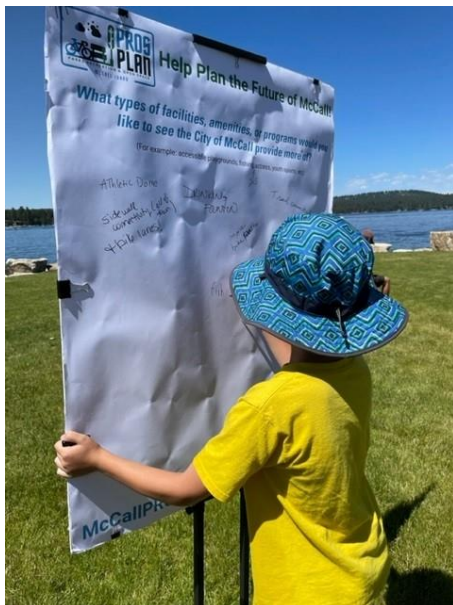

August 15, 2022

As part of the update to the City of McCall's 2005 Parks and Recreation Master Plan, the Logan Simpson planning team and City staff sought community input to help chart the future of McCall's parks, recreation programming, open spaces, and pathways. The results of the activities to date, which were focused on identifying issues, challenges, and opportunities are summarized below. Additional outreach will occur in the next phases of the planning process. This document focuses on the input received from the stakeholder interviews, an online questionnaire, recent pop-ups at community events, and discussions with Focus Groups.

## Summary of Outreach Activities

- Stakeholder interviews
- Online questionnaire regarding use patterns, demand for facilities, priorities, and support for various trends
- 14 pop up events at park programs and community events (e.g., mountain bike camps, airport open house, Brown Park ribbon cutting, Chamber After Hours, etc.) conducted during the time of Questionnaire #1
- 5 Focus Group sessions
- Flyers and business cards distributed around town
- Notifications and promo videos posted on social media
- Newspaper advertisements
- Parks and Recreation Newsletter (June 2022)
- Council updates

## Stakeholder Interviews

The Logan Simpson planning team conducted interviews with McCall's City Manager, City Council members, and the Director of Public Works in April 2022. Responses to questions are summarized below.

### **What does the parks and recreation department do well?**

Everyone was extremely complimentary of existing staff, the job they do with limited funding and staffing levels, their creativity with new ideas that keep people of all ages involved, their dedication, and their understanding of what the community wants. Their attentiveness to keeping the community beautiful and keeping parks and trails plowed and maintained is greatly appreciated.

### **In 2040, what should the City Parks and Recreation Department win an award for?**

- Being a leader in Health and Happiness.
- Social Connectivity (people connected to each other via social interaction and friendly) and Community Spirit
- Exceptional leadership with forward-thinking philosophy
- All of parks are networked with each other and to where people live and can ride bikes to do activities
- Environmental sustainability.
- Promoting public health through outdoor activities.
- Most amazing place to recreate for those over age 70
- Everything they already do so well
- Access to waterways
- Establishing a recreation district for funding
- Providing unique, different types of recreational experiences that keeps kids interested and involved in the outdoors for life-long pursuits

### **What trends do you think the City should explore?**

- Health and well-being activities
- Indoor recreational program spaces, including aquatics, for year-round use
- Generating revenue. RV campsites?
- Educating users on etiquette and responsible behavior
- Homeless population increasing and affordability of housing decreasing
- Increasing access by people with mobility challenges
- Enhanced trails
- Natural park features – natural playgrounds
- Recreational technology – ebikes, drones
- More walkability, bikeability, human movement, and closing streets to become promenades
- Encourage seniors to have more outdoor access year-round
- River recreation

### **What issues or challenges are of greatest concern to you?**

- Funding, establishing priorities, and increasing construction costs
- Increasing river access while preserving the environment
- Walking and bicycling connectivity
- Where ballfields and sports facilities should be located
- Affordable housing for workers
- Concessions and fee policies
- Impacts by visitors

- Protection of water quality
- Snow storage

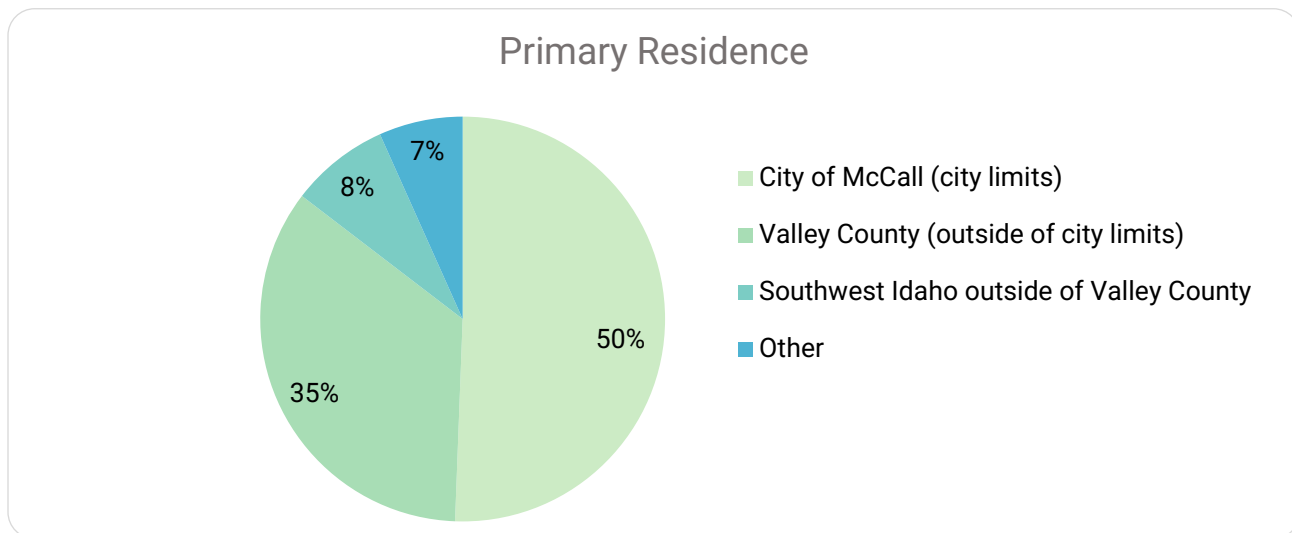

**This Plan will be a success if \_\_\_\_\_?**

- ...it is adopted unanimously by the council and clear direction for actions with broad community support.
- ...it outlines clear opportunities for the future and vision.
- ...is implementable in steps but need a big vision to work towards. Community support for the actions.
- ...it is affordable for people to stay in the town and do what they want to do – can’t lose great staff.
- ...there is a good vision and how to accomplish it.
- ...people in the community support allocating necessary funding for its implementation.
- ...we can continue to have the amazing staff in the department and city.
- ... it does a great job of engaging the community so that everyone has had an opportunity to participate and understands the priorities and how they were defined. And that is implementable and not outdated in a couple of years.

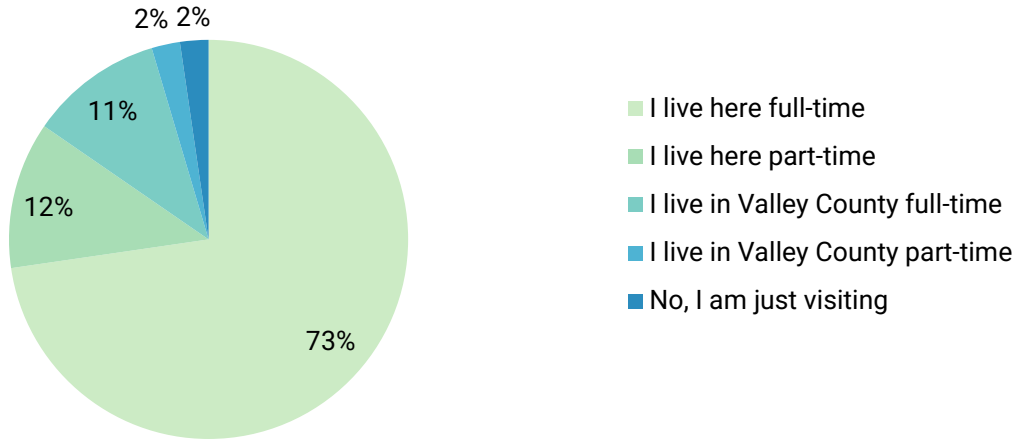

**Questionnaire #1**

Questionnaire #1 (Q1) was available online between June 7 and July 31, 2022. Completed responses were collected from 178 community members. The responses are not considered to be statistically-valid because there was not a random sample and people could choose to participate or not. The results are still important because they provide insight into the habits and opinions of people who are of different ages, 85% who live full or part-time in the City. Two-percent of the respondents were visitors. The rest live in Valley County full or part-time.

**Demographics**

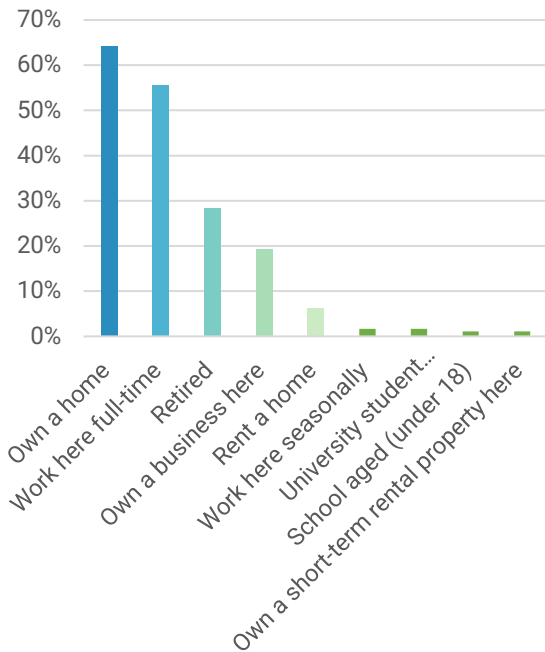

### Resident Status

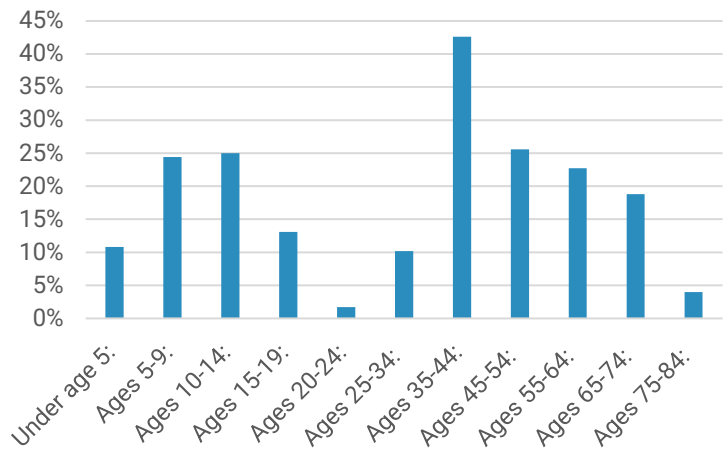

Almost 65% of the respondents own a home and a majority work full-time. Seasonal workers and those who rent may be underrepresented, as shown by the low numbers on the two charts below. The age groups indicate that families were represented.

### Relationship with the City

### Household Age Representation

## **Participation & Needs – Facilities and Amenities**

Respondents were asked if they used a specific recreation facility or amenity and, if so, was it located in the City or another jurisdiction. Respondents then shared whether they would like the City of McCall to provide more of these facilities or amenities. The following table is sorted by the percentage of total questionnaire respondents who indicated that they use a particular facility or amenity. Facilities or amenities within the City of McCall that see a high percentage of use amongst respondents and facilities or amenities that respondents would like the City to provide more of are highlighted in Table 1. The features that 50% or more of respondents use are McCall’s parks, open space/natural areas, swim beaches, road and gravel biking facilities, nature trails, outdoor performance/rental spaces, and public dock system. Many other facilities or amenities are used by more than one-third of residents.

There is a high demand to provide more facilities of all kinds, with the higher use levels in McCall typically corresponding to a high desire for the City to provide more of a particular facility. Exceptions are indoor and outdoor pools, indoor events and meeting rooms, nature/environmental learning centers, dog parks, splash pad, community gardens, multi-sports fieldhouse, and rock wall and ropes course. Some of these facilities are not present in McCall, and if they were, participation would likely be higher than indicated on this survey.

**Table 1. Facility/Amenity Use Levels, Location, and Demand for More**

| Type of Facility/Amenity                              | Percentage of total respondents who use the facility/amenity | Percentage of total respondents who use a facility/amenity in... |  | Would you like the CITY to provide more? |       |
|---|--|--|--|--|-------|
|   |  | City of McCall   | Other (e.g., Federal Land, Non-profit, etc.) | Yes                                      | No    |
| Developed Parks (i.e., with restrooms, picnic tables) | 94.4%  | 92.7%  | 60.7%  | 86.3%                                    | 13.7% |
| Open Spaces/Natural Areas (undeveloped)               | 94.3%  | 74.7%  | 81.5%  | 82.5%                                    | 17.5% |
| Beaches (Swim)  | 88.2%  | 82.6%  | 64.0%  | 76.3%                                    | 23.8% |
| Biking (casual/road/gravel)                           | 86.5%  | 80.9%  | 68.0%  | 85.7%                                    | 14.3% |
| Nature trails (walking, running, hiking, etc.)        | 84.3%  | 65.7%  | 71.9%  | 85.4%                                    | 14.6% |
| Biking (mountain bike)                                | 74.1%  | 45.5%  | 61.8%  | 63.6%                                    | 36.4% |
| Campgrounds   | 73.1%  | 16.3%  | 67.4%  | 44.5%                                    | 55.5% |
| Kayak, paddleboard, canoe, or float tubing (River)    | 73.1%  | 47.2%  | 61.8%  | 63.9%                                    | 36.1% |
| Kayak, paddleboard, or canoe (Lake)                   | 72.5%  | 56.7%  | 55.6%  | 67.9%                                    | 32.1% |
| Cross country skiing                                  | 66.9%  | 37.6%  | 57.9%  | 57.7%                                    | 42.3% |
| Downhill skiing                                       | 64.0%  | 19.7%  | 57.9%  | 30.4%                                    | 69.6% |
| Snowshoeing   | 64.0%  | 30.3%  | 55.6%  | 45.9%                                    | 54.1% |
| Beaches (Dog beaches)                                 | 60.1%  | 49.4%  | 38.2%  | 67.1%                                    | 32.9% |
| Outdoor spaces for performances, education, rentals   | 60.1%  | 53.4%  | 33.1%  | 71.5%                                    | 28.5% |
| Public Dock Systems                                   | 59.5%  | 55.1%  | 32.6%  | 64.2%                                    | 35.8% |
| Bike parks (pump/skills track)                        | 58.4%  | 48.9%  | 33.1%  | 58.9%                                    | 41.1% |
| Fishing (river)                                       | 55.0%  | 32.6%  | 46.1%  | 53.7%                                    | 46.3% |
| Park shelters/ pavilions                              | 54.5%  | 44.4%  | 33.7%  | 67.2%                                    | 32.8% |
| Fishing (lake)  | 51.2%  | 31.5%  | 41.0%  | 44.3%                                    | 55.7% |
| Accessible playground equipment                       | 50.6%  | 50.0%  | 7.9%   | 59.5%                                    | 40.5% |
| Marinas/boat launches                                 | 48.3%  | 44.9%  | 25.8%  | 40.5%                                    | 59.5% |
| Indoor pools  | 47.2%  | 32.6%  | 27.5%  | 80.5%                                    | 19.5% |
| Sledding  | 47.2%  | 39.9%  | 28.7%  | 45.4%                                    | 54.6% |
| Pools (Indoor)  | 47.2%  | 32.0%  | 25.8%  | 77.6%                                    | 22.4% |
| Playgrounds   | 46.6%  | 46.1%  | 13.5%  | 60.7%                                    | 39.3% |
| Indoor event/classroom/meeting room space             | 44.9%  | 40.4%  | 21.3%  | 63.8%                                    | 36.2% |

| Type of Facility/Amenity                      | Percentage of total respondents who use the facility/amenity | Percentage of total respondents who use a facility/amenity in... |  | Would you like the CITY to provide more? |       |
|---|--|--|--|--|-------|
|   |  | City of McCall   | Other (e.g., Federal Land, Non-profit, etc.) | Yes                                      | No    |
| Ice skating                                   | 44.4%  | 37.1%  | 15.2%  | 32.2%                                    | 67.8% |
| Nature centers/environmental learning centers | 41.6%  | 26.4%  | 27.5%  | 59.5%                                    | 40.5% |
| Multi-purpose rectangular fields              | 39.9%  | 38.2%  | 12.9%  | 49.2%                                    | 50.8% |
| Dog parks                                     | 39.3%  | 31.5%  | 18.5%  | 64.3%                                    | 35.7% |
| Splash pad/spray park                         | 38.8%  | 37.6%  | 5.1%   | 57.4%                                    | 42.6% |
| Multi-purpose diamond fields                  | 37.6%  | 36.5%  | 3.9%   | 38.1%                                    | 61.9% |
| Disc golf courses                             | 37.6%  | 33.1%  | 18.5%  | 35.2%                                    | 64.8% |
| Pools (Outdoor)                               | 33.2%  | 20.2%  | 19.7%  | 59.2%                                    | 40.8% |
| Community gardens                             | 31.5%  | 23.0%  | 15.7%  | 65.4%                                    | 34.6% |
| Biking (fat bike)                             | 29.8%  | 21.3%  | 20.8%  | 36.5%                                    | 63.5% |
| Pickleball courts                             | 28.6%  | 24.7%  | 14.6%  | 45.1%                                    | 54.9% |
| Multi-sports fieldhouse                       | 27.0%  | 23.0%  | 9.0%   | 62.3%                                    | 37.7% |
| Tennis courts                                 | 26.4%  | 23.6%  | 8.4%   | 26.3%                                    | 73.7% |
| Rock wall and ropes course                    | 23.0%  | 14.0%  | 12.9%  | 61.1%                                    | 38.9% |
| Ice fishing                                   | 19.7%  | 11.8%  | 12.4%  | 21.7%                                    | 78.3% |
| Other facility/activity: _____                | 12.4%  | 11.2%  | 6.7%   | 30.6%                                    | 69.4% |

### Participation & Needs – Programs

Respondents were asked if they participated in specific program and, if so, was it located in the City or another jurisdiction. Respondents then indicated whether they would like the City of McCall to provide more of these programs. Table 2 shows the results, which indicate that community events is the only program that a majority of respondents participate in within the City. Federal and other agencies provide many programs for other interests, supplementing what is provided by McCall. Almost all types of programs have a high demand for more.

**Table 2. Program Use Levels, Locations, and Demand for More**

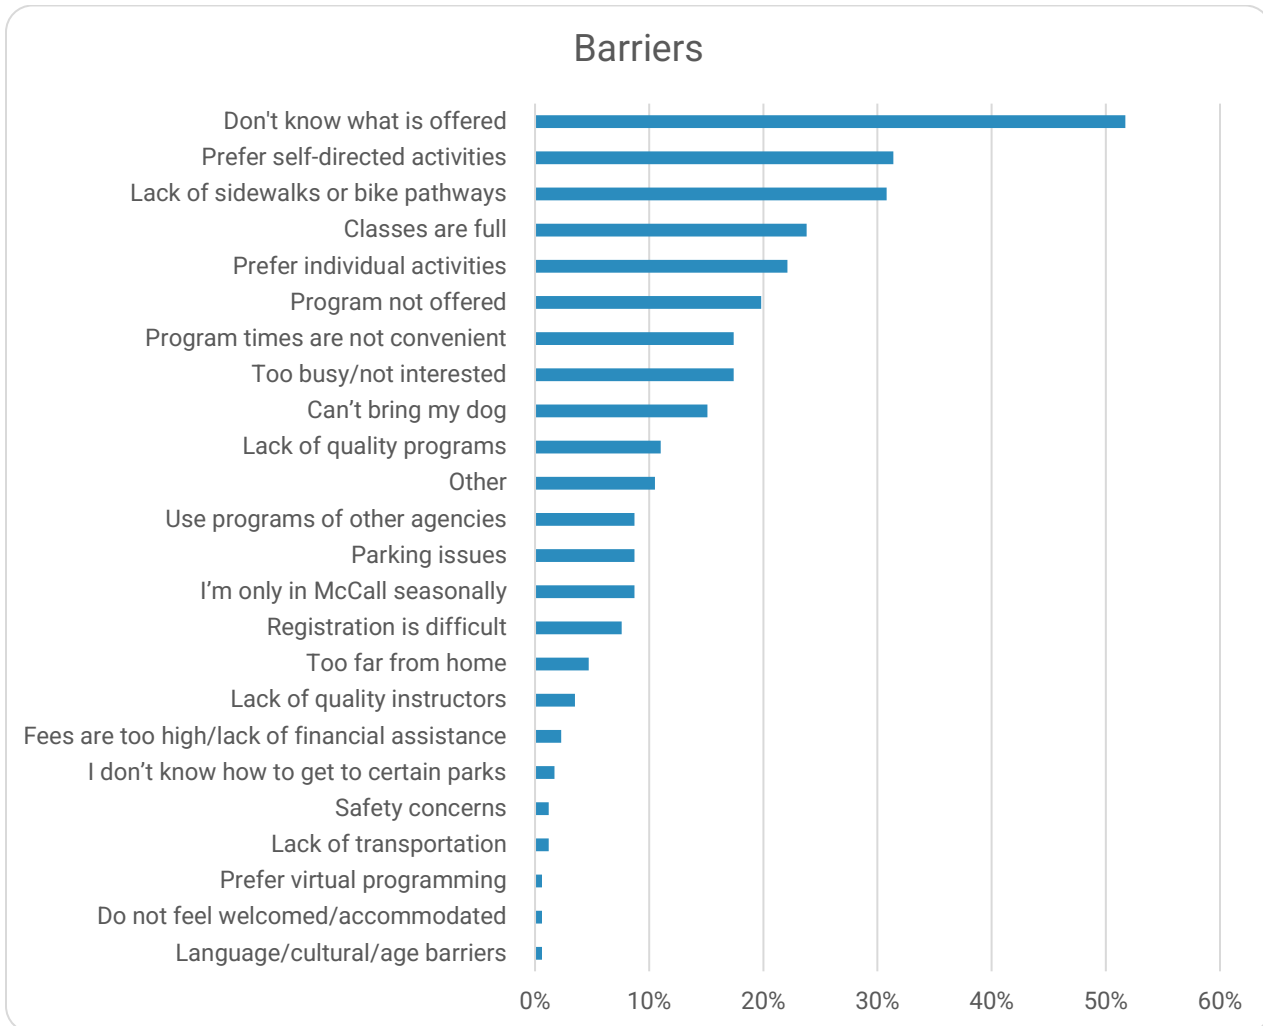

| Type of Program   | Percentage of total respondents who participate in a program | Percentage of total respondents who participate in a program in... |  | Would you like the CITY to provide more? |       |
|---|--|--|--|--|-------|
|   |  | City of McCall   | Other (e.g., Federal Land, Non-profit, etc.) | Yes                                      | No    |
| Community events (concerts, festivals, races, walks)                          | 66.3%  | 61.8%  | 38.8%  | 77.9%                                    | 22.1% |
| Stage performances (music, dance, theater)                                    | 42.7%  | 36.0%  | 18.5%  | 67.8%                                    | 32.2% |
| Adult fitness and wellness  | 42.2%  | 27.5%  | 24.2%  | 66.1%                                    | 33.9% |
| Arts, history, and culture  | 41.0%  | 36.0%  | 16.9%  | 62.8%                                    | 37.2% |
| Environmental education   | 35.9%  | 24.7%  | 24.2%  | 61.3%                                    | 38.7% |
| Camp programs   | 33.1%  | 24.2%  | 18.0%  | 61.7%                                    | 38.3% |
| Volunteer opportunities   | 32.0%  | 24.7%  | 19.7%  | 70.3%                                    | 29.7% |
| Outdoor adventure programs  | 28.1%  | 20.2%  | 16.3%  | 69.7%                                    | 30.3% |
| Outdoor skills/safety courses (survival skills, wilderness first aid, etc.)   | 28.1%  | 16.3%  | 19.7%  | 72.4%                                    | 27.6% |
| Before and after school programs  | 27.5%  | 23.0%  | 10.7%  | 69.8%                                    | 30.2% |
| Youth fitness and wellness programs   | 25.8%  | 23.6%  | 9.6%   | 74.4%                                    | 25.6% |
| Human services (transportation assistance, meals, health, or other education) | 22.5%  | 21.9%  | 9.6%   | 64.3%                                    | 35.7% |
| Teen programs   | 21.3%  | 19.1%  | 7.9%   | 76.7%                                    | 23.3% |
| Outdoor fitness programs  | 20.2%  | 16.9%  | 9.6%   | 64.3%                                    | 35.7% |
| Preschool programs  | 20.2%  | 16.9%  | 7.9%   | 66.7%                                    | 33.3% |
| Youth environmental stewardship programs                                      | 19.1%  | 15.7%  | 9.6%   | 69.8%                                    | 30.2% |
| Archery (indoor or outdoor)   | 15.2%  | 10.1%  | 7.9%   | 39.6%                                    | 60.4% |
| Older adult fitness (age 65+)   | 14.0%  | 13.5%  | 6.2%   | 60.2%                                    | 39.8% |
| E-sports programs/leagues/tournaments   | 11.8%  | 11.2%  | 5.1%   | 26.2%                                    | 73.8% |
| Geocaching, augmented reality   | 10.1%  | 7.3%   | 6.2%   | 18.7%                                    | 81.3% |
| Older adult out of town events/trips  | 9.0%   | 8.4%   | 3.9%   | 29.3%                                    | 70.7% |

## Barriers to Participation

Respondents were asked indicate reasons for not participating in more City Park and Recreation programs or events. The primary barrier to not participating more was not knowing what was offered (52%), preference for self-directed activities (31%), lack of access via bike pathway or sidewalk (31%). Eighteen to 24% percent indicated a barrier to be the inability to register because classes are full, and programs are not offered or are not convenient. Fees, perception of safety, quality, and registration are not barriers to participation. Open-ended responses included: programs are not offered for kids under 3 or over 12; lack of indoor facilities; facilities/programs are crowded; lack of field space; do other activities not related to City parks and recreation, lack of older adult active programming and parking, and availability of restrooms year-round at parks.

*"In the 20+ years I've been coming here, this town has offered the most services per capita I've ever seen."  
 "In the winter/mud season there is no community-owned public space for soccer, basketball, swimming, and educational events."*

## Equity and Safety

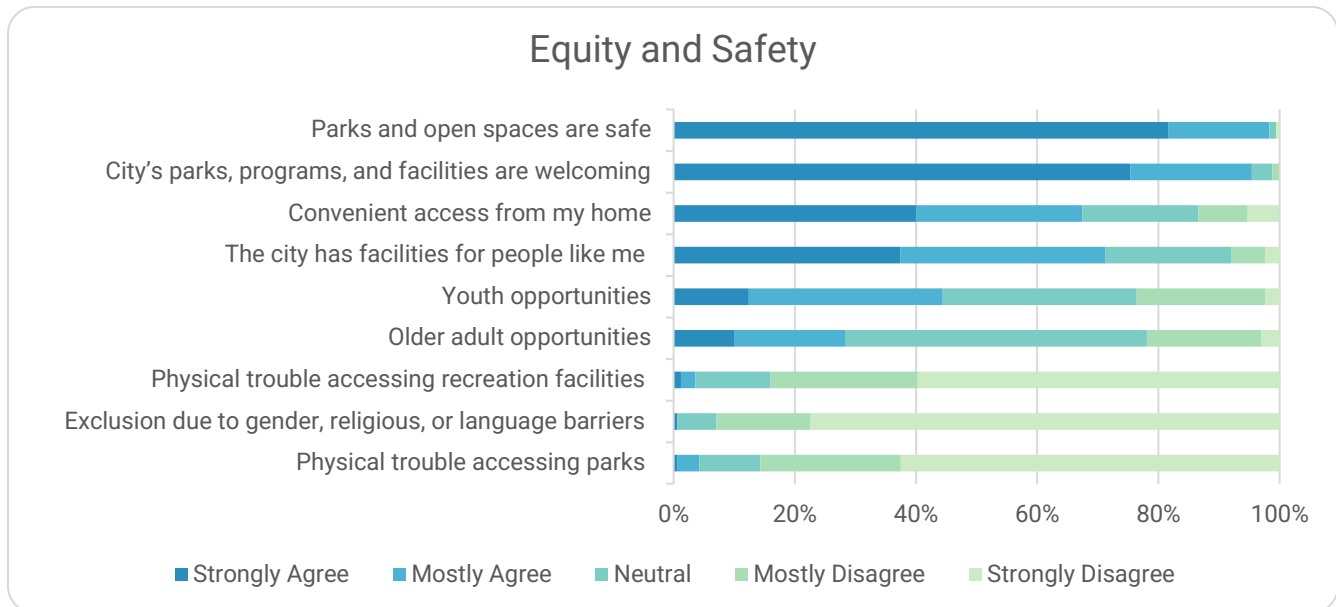

Respondents were asked to rate their level of agreement with statements about access, equity, inclusion, and safety in McCall related to the provision of parks and recreational facilities and services. Most respondents concluded that parks in McCall are safe (82%) and welcoming (75%). Other comments included:

*"There are few communities more welcoming than McCall. Lack of access is something related to weather, less to planning."*

*"The lack of bike lanes in town is also disappointing and ruins traffic. This is a safety issue that has been overlooked far too long. It makes our city less accessible and less beautiful."*

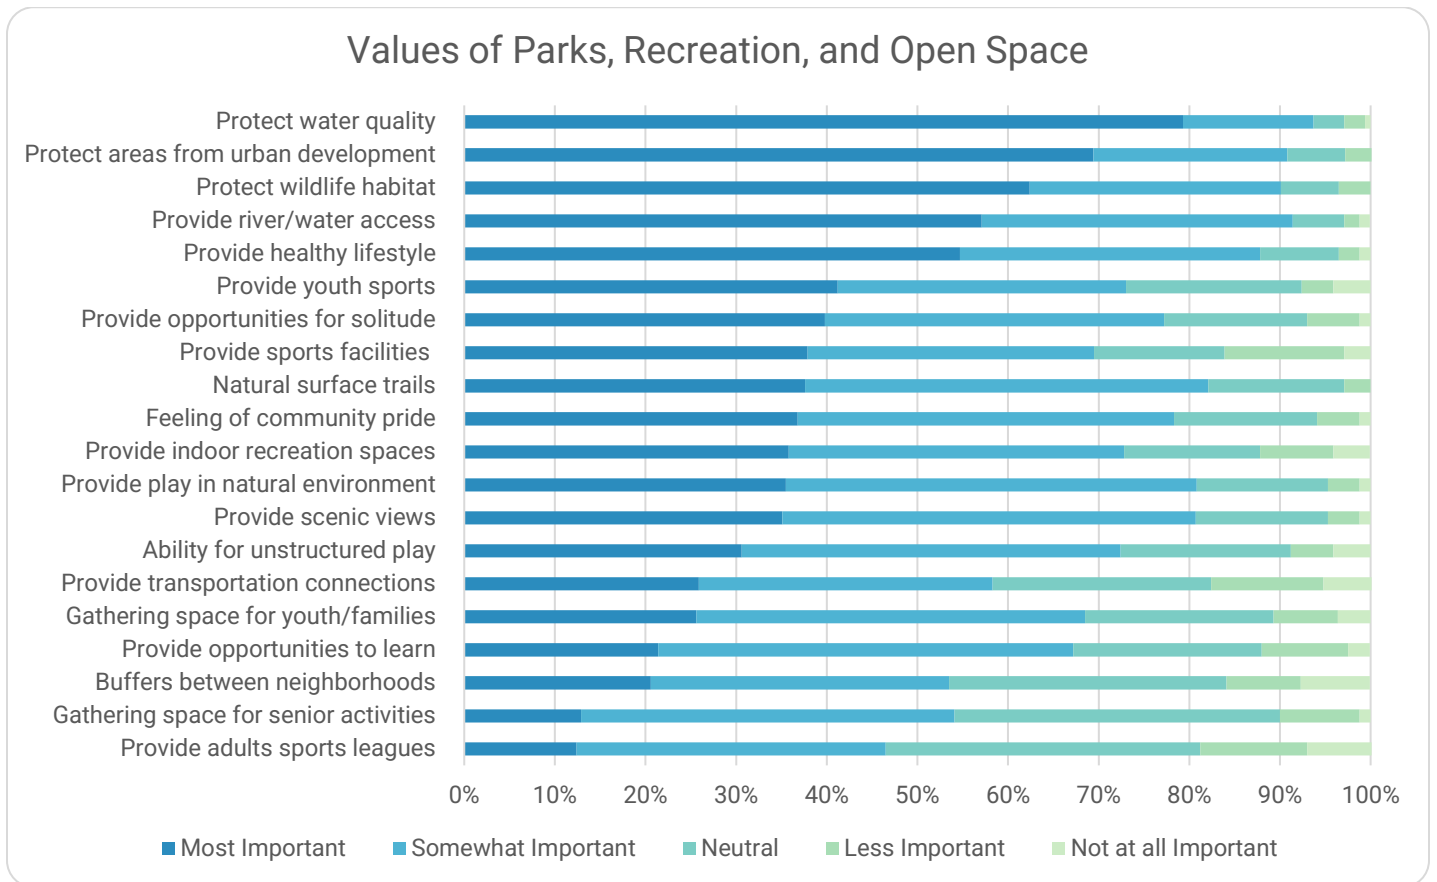

*"Not enough programs for youth, 12-17 yr. olds specifically. Too young to work and still need opportunities to enjoy summer like the out of area kids their age are doing."*

*"Develop pathways that are paved for a more even walking surface for seniors or disabled."*

**Values & Priorities:**

Respondents were asked to rate how important various parks, recreation, open space, and pathways benefits were to them. Key priorities included protection of water quality (79%), areas from urban development (69%), and wildlife habitat (62%). Additional priorities include providing river/water access (57%) and a healthy lifestyle (55%).

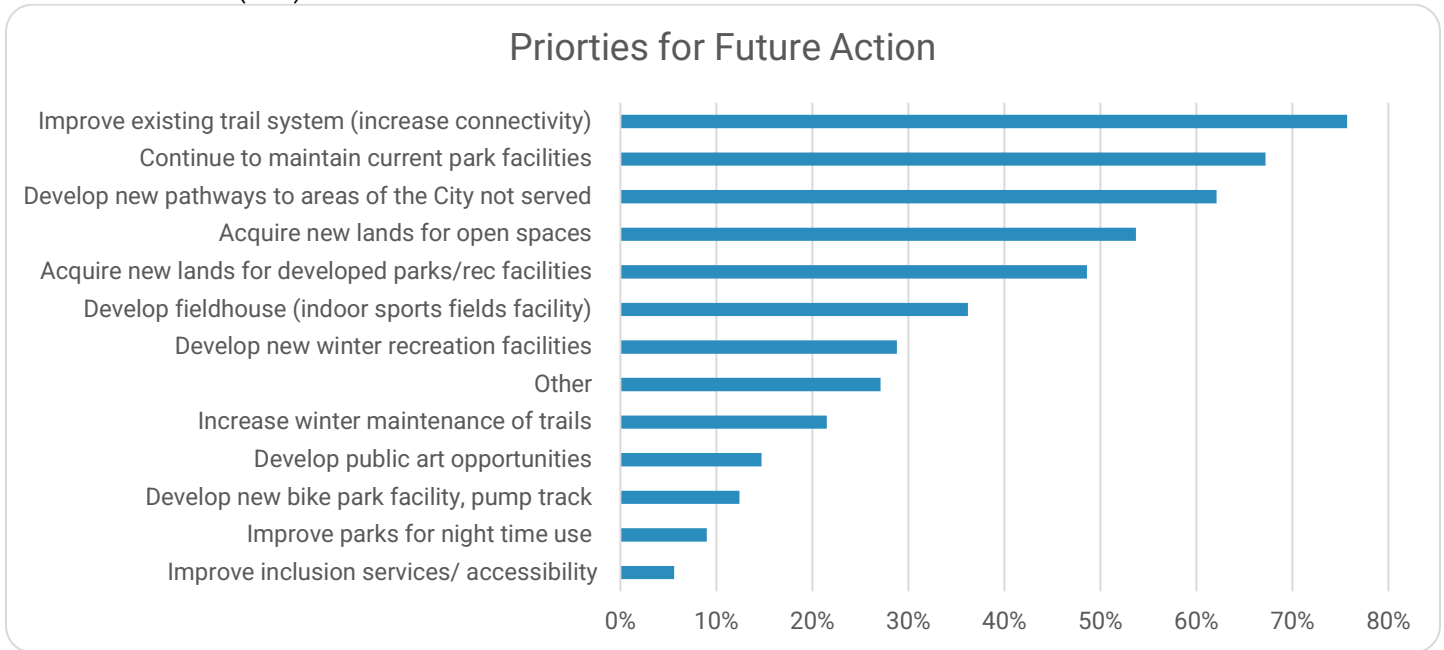

However, when asked to rank the top five most important parks, recreation, open space, and pathways benefits the following benefits emerged.

|                                      | RANK |
|--------------------------------------|------|
| Provide river/water access           | 1    |
| Protect water quality                | 2    |
| Protect areas from urban development | 3    |
| Provide indoor recreation spaces     | 4    |
| Protect wildlife habitat             | 5    |

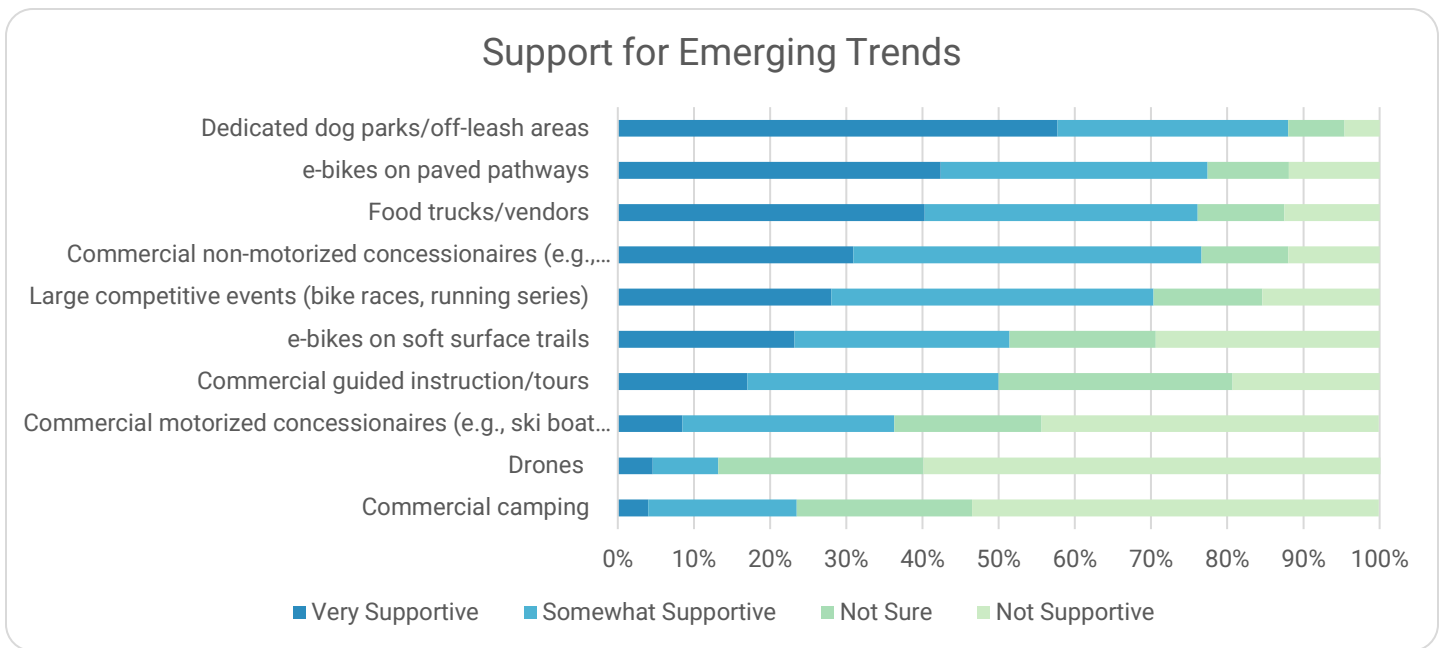

### Priorities for Future Actions

Respondents were asked about priorities for future actions to address both maintaining and expanding amenities. Improving the trail system (76%) and continued maintenance of the current park facilities (67%) ranked highest but were closely followed by the desire to develop new pathways (62%) and acquire new lands for open space (54%) and develop parks and recreation facilities (49%).

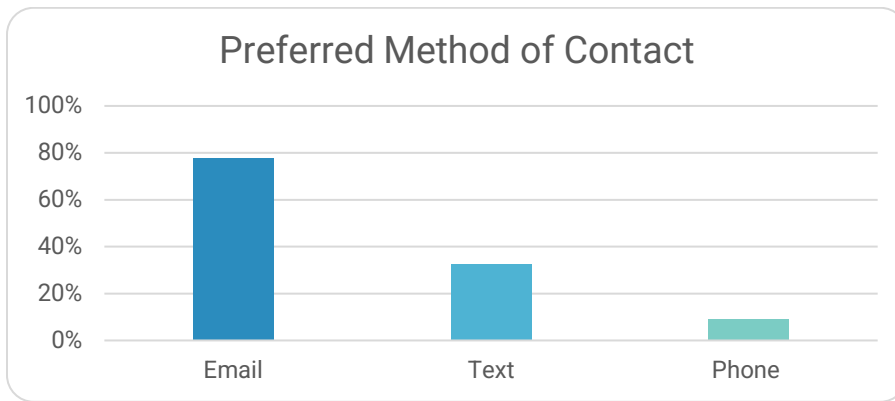

### Support for Emerging Trends

Respondents indicated their level of support for various trends that are emerging throughout the Mountain West and that have been topics of debate in McCall.

## Preferred Method of Contact

## Other Comments

The following facilities were identified as missing in McCall through open-ended comments.

- Rowing center/boathouse
- Full-service recreation center
- Indoor pool/aquatic facility
- Unpaved trails
- Bike lanes/sidewalks
- Dog friendly areas
- Pickleball courts (indoor and outdoor)
- Multi-use pathways
- Covered structures

The following is a summary of additional comments.

- More signage regarding safe biking rules and responsibilities
- Maintain some trails for non-motorized
- Space on lake for non-motorized sports
- Bike path from Lick Creek Road to Davis Ave, leading into Ponderosa State Park
- More disc golf
- More public access points to the waterways, including trails, picnic tables, etc along the lake/river
- Sidewalk/path access to Dienhard and areas just outside of the City, and then Dienhard to city center
- Path from Spring Mountain Boulevard to Little Payette Lake
- The staff is amazing. We are lucky to live here.
- Summary: keep up the good work, and do more!
- Funding for P&R is an issue! Real estate development impact fees related to P&R need updating.
- Riverfront Park development will be a great addition.
- Adequate funding for existing P&R and new \$ for increased parks pressure. Development must pay its share for P&R.

## Pop-Up Event Input Summary

In addition to the full online Questionnaire #1 summarized above, input was collected at a series of pop-up events across the community. Some of the same questions from Questionnaire #1 were asked at the pop-up events. Hundreds of contacts were made during these events and many chose to answer questions on boards at the booths. Input during community events could have reduced the public's motivation to complete the full Questionnaire #1 online. The following tables summarize the number of people who support specific trends, potential improvements, and what people want more of.

**Table 3. Totals from 3 Events [Airport, Liberty Fest, Cornhole]**

| Would you support the following emerging outdoor recreation trends in public parks and open spaces? | Totals |        |    |
|---|--------|--------|----|
|   | yes    | unsure | no |
| Dedicated Dog Parks/Off-Leash Areas   | 77     | 0      | 2  |
| Food Trucks/Vendors   | 75     | 0      | 4  |
| Large Competitive Events (Bike Races, Running Series)   | 52     | 1      | 0  |
| E-Bikes On Paved Pathways   | 43     | 2      | 4  |
| E-Bikes On Soft Surface Trails  | 30     | 0      | 23 |
| Drones  | 27     | 4      | 54 |
| Commercial Camping  | 19     | 0      | 11 |
| Commercial Guided Instruction/Tours   | 17     | 0      | 1  |
| Lick Creek Dedicated Biking/Walking Path  | 17     | 0      | 0  |
| Commercial Non-Motorized Concessionaires (Rentals/Sales)  | 13     | 0      | 3  |
| Youth Baseball Fields   | 12     | 0      | 0  |
| Indoor Sports Facility  | 11     | 0      | 0  |
| Commercial Motorized Concessionaires (Rentals/Sales)  | 6      | 1      | 2  |
| Ropes Course  | 6      | 0      | 0  |
| Nez Perce Cultural Center   | 6      | 0      | 0  |
| Museum  | 4      | 0      | 0  |
| Youth Adventure/Outdoor Camps   | 4      | 0      | 0  |
| ATV Park  | 2      | 0      | 2  |

**Table 4. Totals from 2 Events [Mile High Swim, Business After Hours]**

| What future improvements would you like to see in the City?            | Total |
|--|-------|
|  | count |
| Improve Existing Trail System (Increasing Connectivity/Accessibility?) | 65    |
| Develop New Pathways To Areas Of The City Not Served                   | 54    |
| Acquire New Lands For Open Spaces                                      | 45    |
| Swimming Pool  | 40    |
| Continue To Maintain Current Park Facilities                           | 37    |
| Develop Fieldhouse (Indoor Sports Fields Facility)                     | 27    |
| Develop New Bike Park Facility, Pump Track                             | 24    |
| Develop Public Art Opportunities                                       | 20    |
| Dog Park   | 19    |
| Rec Center   | 17    |
| Improve Parks For Night Time Use                                       | 16    |
| Increase Winter Maintenance Of Trails                                  | 13    |
| Acquire New Lands For Developed Parks Or Recreation Facilities         | 12    |
| Improve Inclusion Services Or Accessibility To Programs And Facilities | 9     |
| Pathway Around Lake  | 6     |
| Develop New Winter Recreation Facilities                               | 5     |
| Community/Experimental Garden  | 4     |
| Invite Community Alliances/Collaboration                               | 2     |

**Table 5. Open Ended Comments from 3 Events: [Liberty Fest, Ribbon Cutting, Mile High Swim]**

| What types of facilities, amenities, or programs would like to see the City of McCall provide more of? |
|--|
| Liberty Fest   |
| Pathways along the lake  |
| Indoor sports complex with school district   |
| Contra dancing   |
| Public parking   |
| Temporary 4-way stops on busy weekends   |
| Non-motorized boat house   |
| Square dancing   |
| Rec center with pool (x3)  |
| Connect paths  |
| Sidewalks  |
| Expand to a rec district including McCall  |
| Ribbon Cutting   |
| Athletic dome  |
| Drinking fountain (x2)   |
| Sidewalk connectivity (all of town) and bike lanes   |
| Monkey bars  |
| More bike paths  |
| Waterslide into the lake   |
| Water trampoline in the lake   |
| Trail connectivity   |
| Fishing access (x2)  |
| Off-leash dog area   |
| 3 long slides together   |
| Zipline  |
| Slack line poles   |
| More playgrounds   |
| Mile High  |
| City playing fields for youth sports   |
| More art and craft programs  |
| Develop program to keep downtown sidewalks cleaner (wash sidewalks)                                    |
| Comedy shows   |

## Focus Group Summary

Conversations were conducted with five focus groups to identify trends and challenges and what is missing in the community, and to define what is the measure of success for this Parks and Recreation Master Plan. The focus groups and number of participants are listed below.

- Aquatics/Non-Motor Water Sports - 10
- Recreation Industry Businesses & Tourism - 8
- Public Lands - 11
- Recreation/Community Programming - 15
- Health & Safety- 8

### Trends and Challenges

- Lots of use and programs at capacity – provide high level of service to a larger population than just residents
- Maintain aesthetics and water quality of Lake and River
- Access to river
- Riverfront Park – huge opportunity but what exactly is it?
- Pickleball
- Summer season is extended and more people year-around
- Private concessions and rental
- Cycling and e-bikes
- Community health and well-being
- Adaptive sports
- De facto open space that could be developed in the future
- Staffing
- Debate between housing/development vs open space

### What's Missing?

- Storage for paddle craft/rowing
- Whitewater Park
- River access points
- Dog beach/off-leash areas
- Indoor recreation/field house/community center/aquatics facility – place to recreate in the winter
- Connectivity across town – east-west, including off-street bike paths
- Community gardens
- Youth programming

### Measures of Success

- Defining the City's role and strategic position
- Sustainable
- Parks impact fee and development dedication processes
- Programming fee structure
- Including funding solutions – be proactive now (fees, District, LOT, etc.)
- Focus on maintaining what we have first

- Focus down to key priorities that can be accomplished
- Short term vs. long term priorities

**Other Topics**

- Boat launch/parking fees
- Parking
- Night sky friendly lighting
- Coordinate with future Forest Plan Revision, Community Health Needs Assessment, Waterways Plan, and other regional planning events
- Public education on responsible and safe recreation
- Transportation to parks
- Keep and expand equipment loaner program
